CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

This Prospectus contains or incorporates by reference statements that constitute "forward-looking statements". Such forward-looking statements may include, but are not limited to, statements relating to the Issuer's and the Guarantor's plans, targets, goals, future economic performance or prospects, the potential effect of certain contingencies on the Issuer's and the Guarantor's future performance, and assumptions underlying such statements.

Words such as "will", "believe", "anticipate", "expect", "intend", "plan", "predict", "estimate", "project", "target", "assume", "may" and "could" and similar expressions are intended to identify prospects and/or other forward-looking statements but are not the exclusive means of identifying such prospects and other statements.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that prospects, predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. The Issuer and the Guarantor caution potential investors that a number of important factors could cause results to differ materially from the plans, targets, goals, future economic performance and prospects expressed in such forward-looking statements. Except as required by the FinSA or other applicable securities laws, neither the Issuer, nor the Guarantor, nor the Managers undertake an obligation to update any prospects or other forward-looking statements contained or incorporated by reference herein after the date hereof, even if new information, future events or other circumstances have made such statements incorrect or misleading.

MATERIAL RISKS

An investment in the Bonds involves risks, including the risk of loss of a Holder's entire investment in the Bonds. Investors should reach their own investment decision with regard to the Bonds and only after consultation with their own financial and legal advisers about risks associated with an investment in the Bonds, and the suitability of investing in the Bonds in light of their particular circumstances.

The Issuer and the Guarantor believe that the factors described below represent material risks inherent in investing in the Bonds, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Bonds or otherwise fulfil its obligations in connection with the Bonds, or of the Guarantor to fulfil its obligations under the Guarantee, may occur for other reasons that may not be considered material risks by the Issuer and the Guarantor based on information currently available to them or that they may not currently anticipate. In addition, certain factors that are material for the purpose of assessing the market risks associated with the Bonds are described below. Prospective investors should give careful consideration to the following risks in evaluating the merits and suitability of an investment of the Bonds. The information is not intended to be an exhaustive list of all potential risks associated with an investment in the Bonds. Prospectus investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making an investment decision.

The sequence in which the risk factors are presented below is not indicative of their likelihood of occurrence or the potential magnitude of their financial consequences.

Risks relating to the Issuer and its Business

The Issuer relies on the credit of the Guarantor.

The Issuer is a finance entity and relies on the credit of the Guarantor. It has no subsidiaries and limited ability to generate revenue. As it has no revenue generating operations of its own, the Issuer is wholly dependent on the earnings and cash flows of, and distributions from, the Group's operating subsidiaries to generate the necessary funds in order to service the payment of principal and interest of the Bonds. The operating performance and financial condition of the Group's operating subsidiaries and the ability of such subsidiaries to provide funds to the Issuer will in turn depend, to some extent, on general economic, financial, competitive, market and other factors, many of which are beyond the Issuer's control. The terms and conditions of agreements to which the Group is or may become party may impose further restrictions or prohibitions on such operating subsidiaries' ability to make payments to the Issuer. The Group's operating subsidiaries may not generate income and cash flow sufficient to enable the Issuer to meet the payment obligations on the Bonds. The Group's inability to generate sufficient cash flow to service the intercompany loans will prevent the Issuer from servicing its indebtedness under the Bonds.

Risks relating to the Guarantor and its Business

The Group is subject to many risks and uncertainties that may materially adversely affect its financial performance. The business, results of operation or financial condition of the Group could be materially adversely affected by the following risks:

Adverse developments in worldwide economic conditions.

Worldwide economic conditions impact the industries in which the Group's direct and indirect customers are active. A weak economic climate in the relevant customer industries may result in lower sales volumes and price decreases for the products, services and technologies supplied by the Group, which in turn may adversely affect its or their results of operations. In addition, certain of the Group's customers sell their products in a competitive and uncertain environment, which may lead to varying and uncertain demand for the Group's products from these customers, sometimes amplified by de- and re-stocking effects. Therefore, the Group's business and results of operations will be sensitive to global and regional economic downturns, inflation or deflationary effects, credit market tightness, declining consumer and business confidence and spending habits, fluctuating commodity prices, volatile exchange rates, changes in interest rates, sovereign debt defaults, changes in tax rates or tax regimes, disruptive political changes, armed conflict and other challenges, including those related to international sanctions, acts of aggression or threatened aggression and climate conditions that can affect the global economy.

North and Central America and Europe accounted for a significant amount of the Group's sales. Accordingly, the Group's results of operations will be particularly affected by macroeconomic conditions in North America and Europe. While the US economy has experienced periods of growth in recent years, it has also experienced negative growth due to, among other things, the impacts of COVID-19 and inflation. In particular, there can be no assurance that actions by central banking authorities (including increasing interest rates) or government policies, including those introduced by any presidential administration in the United States will not have an adverse impact on the U.S. economy. In Europe, while the effects of the sovereign debt crisis in the Eurozone, as well as Switzerland, have abated, there can be no assurance that concerns regarding other countries in the Eurozone as well as Switzerland, will not reemerge or inflation will cause widespread negative economic impacts in the Eurozone. Conflict in Ukraine has also resulted in disruptions and an overall negative impact on several economies in the Eurozone, including worldwide trade disruption and sanctions regimes which both impact trade and the flow of goods and increase the cost of compliance with commercial activities, increased energy costs or disruption of access

to energy inputs that could result in manufacturing delays. Should the conflict in Ukraine escalate or continue over a long period of time, or similar conflicts develop in other areas in the future, these conflicts may result in similar trade disruptions or increased costs of various inputs. The conflict in Israel further has spurred uncertainty in global markets. This conflict and any escalation thereof may result in further increased uncertainty and higher costs of various inputs. Finally, in recent years, various emerging market economies where the Group operates have experienced severe economic and financial disruptions, including significant devaluations of their currencies and low or negative economic growth rates, due to a wide range of factors.

If economic conditions deteriorate or armed conflict occurs in the markets in which the Group manufactures its products or provides services, its customers may experience deterioration of their businesses, reduced demand for their products, cash flow shortages and difficulty obtaining financing. As a result, existing or potential customers might delay or cancel plans to purchase products, services or technologies and may not be able to make payments to the Group in a timely fashion or at all.

The industries, in which the Group operates, and the Group's direct and indirect customers were adversely impacted by COVID-19, in particular but not limited to the availability of key personnel and supply chain issues. It might not be excluded that COVID-19 or any potential future pandemic adversely impact the Group's business, its customers and/or the Group's industries or cause instability on or a decrease of the global economy in general.

Any of the foregoing could negatively impact the Group's business, results of operations, financial condition and prospects.

The Group is dependent on, and the Group will be dependent on, the availability of energy, raw materials and consumables and any shortages or price increases may lead to production interruptions and/or increases in production costs and may also limit the Group's ability to grow its business.

The Group's production processes are dependent on the availability of various energy sources, raw materials and consumables. The Group relies on a number of third-party suppliers and other business partners to provide it with these raw materials, consumables and energy inputs. Although the Group sources most of their raw materials and consumables from multiple suppliers, some of their raw materials and consumables are sourced from either very few suppliers or single suppliers. While the Group generally believes that it can maintain access to affordable and reliable sources of energy to manufacture its products, the cost and supply of energy is subject to many factors outside of the Group's control. In particular, energy supplies and the cost of energy in the Eurozone may be significantly and severely impacted due to the conflict in Ukraine. Supply problems, whether caused by the COVID-19 pandemic, transportation issues or armed conflict, with one or more of these suppliers may lead to specific raw materials and consumables becoming unavailable for some time and could jeopardize the Group's business.

Furthermore, the Group may not be able to successfully manage price fluctuations, and in particular inflationary fluctuations, for certain components and materials and increases in the cost of raw materials and semi-finished products that cannot be passed on to customers through corresponding price increases or otherwise compensated for may result in reduced margins for the Group. Even if cost increases are passed on to customers, the Group may face decreased demand and lower sales volumes if customers seek substitutes for the Group's products, services or technologies or if demand for those customers' products is impacted by any price increases that are passed on to end users. In addition, the Group may be required to keep additional inventory on hand to meet customer demand. If customers fail to order such inventory in amounts as predicted by the Group, the Group may be left with additional inventory it cannot sell or sell on the terms and conditions customary with the sale of such products, particularly in light of the broad impacts of COVID-19 conditions in China or the conflict in Ukraine.

In addition, certain of the Group's customers supply APIs and health and nutrition product ingredients to the Group which are required for completion of such customers' products. If there are delays in receipt of APIs or health and nutrition product ingredients, or if APIs and health and nutrition ingredients fail to satisfy applicable quality standards, the Group's results of operations may be impacted.

The challenges and risks the Group will face may become even more significant as the Group endeavors to expand its business, requiring additional and new raw materials, consumables and energy inputs. Decisions to invest in new production facilities may be delayed due to sourcing and supply chain problems or inability to access energy in an affordable or reliable manner. The Group may also be unable to find or establish relationships with new suppliers in locations where it plans to ramp up production and may otherwise be prevented from growing its business as desired.

In addition to these risks, governmental regulations, environmental laws and regulations, increasing demand for raw materials or energy from competitors or other third parties and the effects of supplier consolidation may also lead to temporary or permanent shortages of raw materials or energy. Any such shortages may lead to production interruptions, increases in production costs or even structural change within the industries in which the Group operates. Any of the foregoing could have material adverse effects on the Group's business, results of operations, financial condition and prospects.

The Group allocates funds in the development of new products, services and technologies and the lack of customer acceptance, any failure to successfully develop such products, services and technologies, or any delays in development, could adversely affect the Group's business, results of operations, financial condition and prospects.

The Group depends on their continued ability to develop or implement the development of new products, services and technologies and to then successfully commercialize such products, services and technologies to their customers. However, the Group's products, services and technologies may not gain acceptance among the Group's customers. The degree of market acceptance of any new product, service or technology will depend on a number of factors, any of which could cause any new product or technology not to receive market acceptance.

The Group may also fail to successfully expand or improve its portfolio of products, services and technologies or may lack the capacity to invest the required level of human, financial or other resources in the development of new products, services and technologies. In addition, although the Group seeks to maintain close and cooperative relationships with its customers, it may be unable to maintain these relationships in the future at a level that would enable the Group to effectively identify customer needs and to develop customized solutions.

Furthermore, the Group's competitors may develop new products, services and technologies, or may improve on existing products, services and technologies to the detriment of the Group. In addition, given the rapidly changing regulatory environment in which the Group will operate, the market for a newly developed product, service or technology may cease to exist. Any of the foregoing could have material adverse effects on the Group's business, results of operations, financial condition and prospects.

Demand for the Group's products, patents, services and technologies depends, and demand for the Group's products, services and technologies will depend, significantly on their customers' research and development activities and the market success of their products, as well as outsourcing trends.

The Group engages in the custom development and manufacturing of pharmaceuticals and biological APIs, advanced cell culture therapies and other lifesaving and life-enhancing treatments. The level of research and development spending of the Group's customers may influence the Group's results of operations. Customer spending on research and development is dependent on, among other things, available resources, including relative levels of demand for customers' existing products and the relevant customer's need to develop new products, which is driven by factors such as competitors' research and development initiatives and the anticipated market uptake for specific products. The Group faces risks that:

- The Group's customers may not develop new commercial products incorporating the Group's products, services or technologies, and
- The Group may not be able to successfully develop new products, services or technologies that would be attractive to its existing or future customers.

In addition, consolidation in the industries in which the Group's customers operate may have an impact on such spending as customers integrate acquired operations, including research and development departments, and budgets. A reduction in spending by customers could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

Successful research and development of pharmaceutical products is difficult, expensive and time-consuming. Many product candidates fail to reach the market. The Group's success will depend in part on the discovery and the successful commercialization of products by its customers that can utilize the Group's products, services or technologies. However, the Group does not control the efforts of its customers to successfully commercialize their products. The Group's ongoing investments in research and development could result in higher costs without a proportionate increase in revenues.

Even if products using the Group's products, services or technologies appear promising during various stages of development, there may not be successful commercial applications developed for them for a number of reasons, including the Food and Drug Administration (the **FDA**), the European Medicines Agency, Swissmedic, the Chinese Food and Drug Administration, the Pharmaceuticals and Medical Devices Agency of Japan, another regulatory body or an institutional review board, or the Group's pharmaceutical company customers may delay or halt clinical trials.

Furthermore, the Group's business models and sales depend on dual-sourcing and outsourcing trends in their respective industries. If the current industry trend towards dual-sourcing and outsourcing certain drug development, manufacturing and delivery technologies were to slow or reverse, this could adversely affect the sales of the Group's business, which could in turn have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

Failure to provide quality offerings to customers could have an adverse effect on the Group's business and could subject it to regulatory actions, product recalls, and costly litigation.

The Group depends on its ability to execute and improve when necessary its quality management strategies and systems, and effectively train and maintain its employee bases with respect to quality management. Quality management plays an essential role in determining and meeting customer requirements, preventing defects, compliance with current Good Manufacturing Practices (**cGMP**) and improving product offerings (for example, on 24 April 2017 Lonza received a warning letter from the FDA relating to quality issues related to the production of certain biotherapeutic liquid media products, manufactured in one particular area of its Walkersville, Maryland facility in the United States). While the Group has a network of quality systems applicable across its business units and facilities, quality and safety issues may occur and have in the past occurred with respect to their offerings. Given the highly regulated industry in which the Group operates, any failure in quality or safety could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Group depends on its ability to secure and maintain profitable long-term commercial relationships and contracts with customers.

The Group depends on its continued ability to secure and maintain profitable long-term commercial relationships and contracts with customers. Unfavourable industry trends, market conditions or regulatory regimes may impede the Group's ability to secure profitable long-term contracts with existing and new customers, to maintain profitable commercial relationships or to renew existing contracts as they expire. Any difficulties in securing or renewing such contracts or maintaining such strong customer relationships on favourable terms or at all could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Group plans to continue to make investments in additional production capacity in order to implement its growth strategy and there can be no assurance that it will achieve the return it expects in connection with these investments in its expected timeframe.

Production facilities in the industry in which the Group operates require significant capital expenditure and continuous investment in modernization and expansion measures. The Group expects to make additional investments in order to execute its strategies but there is no guarantee that it will be successful in the execution of such strategies in the Group's expected timeframe. The Group may require additional financial resources to fund its planned investments in the medium to long term, which may be difficult to obtain, or may result in higher costs. Even if adequate financial resources are available, materials to construct any facilities may not be available or may be prohibitively expensive due to supply chain considerations and personnel may not be available to operate the facilities. Furthermore, it takes time for newly constructed facilities or the expansion of existing facilities to become fully operational, as supply chains need to be established, logistics need to be built up, potential customers need to audit production quality and customer relationships need to be established. Any new facilities or expansions of existing facilities may add significant fixed costs to the Group's cost base and may reduce the Group's margins and profitability over the longer term to the extent such facilities are unable to reach and maintain a sufficiently high rate of utilization.

Due to the uncertain nature of such investments, there can be no assurance that the Group will achieve the return it expects in connection with these investments. Moreover, if the Group misjudges market developments or the life cycles of its products, services and technologies or the products of its customers, or if it underestimates the rate at which its competitors are expanding their production capacity, this may create excess production capacity that cannot be utilized as planned. Any such excess capacity may have negative consequences on product pricing or volumes. In addition, investments in production capacity may be unsuccessful if the Group's products, services and technologies turn out to be uncompetitive or otherwise fail to generate the anticipated results. Any unnecessary increase in production capacity and any inefficiencies resulting from the expansion of its production capacity could materially decrease the Group's margins and require substantial impairments. Any of the foregoing could have material adverse effects on the Group's business, results of operations, financial condition and prospects.

The Group may face capacity constraints, driven by strong demand, disruptions at its production facilities or other factors, which could compromise its ability to meet customer demand for its products, services and technologies.

The Group may face capacity constraints to the extent it is unable to anticipate customer demand for its products, services and technologies, as well as customers who may not properly forecast demand of their own products also resulting in requests beyond the Group's capacity. The Group may also experience disruptions at its production facilities, which could result in shortfalls in production or an increase in the Group's costs. In the case of equipment malfunctions, sterility variances or failures, failure to follow specific protocols and procedures, problems with raw materials, microbial or viral contamination, environmental factors and damage to, or loss of, manufacturing operations due to fire, flood, earthquakes or other catastrophic events, the Group may be required to halt production of certain batches or products or shut down the affected production facilities. This has in the past led to, and in the future could lead, among other things, to damage to customer relations, lost revenue and earnings, increased costs, reimbursements to customers for lost profits, additional time and expense spent investigating the cause and, depending on the cause, similar losses with respect to other batches or products.

Any of the foregoing could cause the Group to lose market share, which could have material adverse effects on the Group's business, results of operations, financial condition and prospects.

The Group's markets, in particular those with higher profit margins, may become more intensely competitive, and may be characterised by significant pricing and margin pressure.

The Group faces, and the Group will face, significant competition in each of its market segments. Competition is driven by proprietary technologies and know-how, as well as quality and performance, consistency, price, ability to scale manufacturing and customer support, such as with regulatory approvals, new product development.

The Group's markets, in particular those with higher profit margins, may become more intensely competitive, which could lead to significant pricing and margin pressure. The Group believes that the major factors influencing the relative competitive situation of companies in the industries in which the Group will operate are competitors' relative ability to innovate and improve production processes and technologies and deploy research and development expenditures effectively, the results of their efforts to do so and the effects of a range of regional factors on production costs, including lower wages in developing countries, less stringent environmental and labor regulations, and favorable exchange rates.

The Group's existing competitors could intensify efforts to increase their respective market shares by reducing their margin expectations and/or by increasing their capacity, which may result in higher supply and lower price levels, and may enable competitors to offer products, services and technologies at lower prices, leading in turn to downward pressure on the Group's margins. Some of the Group's competitors may be able to manufacture products more economically or may have greater financial resources than the Group, which may enable them to invest significantly more capital into their businesses, including expenditures on research and development. If these investments prove successful, they could result in a competitive disadvantage for the Group.

Furthermore, new competitors may enter the markets in which the Group operates. Generally, both new and existing competitors may offer their products, services and technologies at lower prices to defend or gain market share, which could put pressure on the Group's margins. Changes in exchange rates could also facilitate market entry for competitors with functional currencies other than the Swiss franc or could adversely affect the Group's cost position vis-à-vis its competitors. In addition, competitors could benefit from favorable tax regimes or additional governmental grants and subsidies. Further, substitute products, services and technologies may become more attractive, for example due to a price decrease or better availability of the substitute product, service or technology, and lead to reduced demand for the Group's products, services and technologies.

The Group's business may also be affected by increasing competition at the level of its customers. For instance, competition faced by the Group's customers may lead to declining prices for their products, which may in turn lead them to pressure the Group to reduce its prices or may cause the customers to discontinue certain products for which the Group provides inputs. This could result in excess capacity at the Group's production facilities and could adversely affect its sales and margins. Any of the foregoing could have material adverse effects on the Group's business, results of operations, financial condition and prospects.

Certain markets in which the Group offers its products and services are, or may become, characterized by a small number of major customers, leading to increased negotiating power among the Group's customers.

Certain markets in which the Group offers their products, services and technologies are characterized by a small number of major customers. Moreover, the markets in which the Group currently operates may evolve, for example as a result of consolidation among customers, which could result in increasing customer concentration. Customer concentration may result in customers using their power to exert pressure on the Group's prices, which could adversely affect its profitability. As a result, any increase in customer concentration could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

Changes in foreign exchange rates may have a material adverse effect on the Group's results of operations and may affect demand for its products and services.

The Group is exposed to foreign exchange risk because the amount of local currency paid or received for transactions denominated in foreign currencies may vary due to changes in exchange rates (transaction exposures) and because the foreign currency denominated financial statements of the Group's foreign subsidiaries may vary upon consolidation into the Swiss-franc-denominated Group financial statements (translation exposures). In relation to the Group, foreign exchange risks arise primarily in connection with transactions that are denominated in United States dollars, euro and British pounds sterling.

As a general matter, the effect of foreign exchange fluctuations is minimised through the natural hedge the Group enjoys as a result of its matching of currencies in relation to sales and costs in the jurisdictions in which it operates. In managing its exposure regarding the fluctuation in foreign currency exchange rates, the Group has entered into a variety of currency

swaps and forward contracts. Notwithstanding these efforts, however, the strength of the Swiss franc has had an adverse impact on its results of operations in recent periods and may continue to do so.

The Group will continue to be exposed to the risk of foreign exchange rate fluctuations, and if it is unable to manage this risk effectively, through hedging or otherwise, its business, results of operations, financial condition and prospects could be materially adversely affected.

Pharmaceutical manufacturing, storage, and transportation may be dangerous and may lead to personal injury, damage to property or other damage and any hazardous incidents that the Group may face could result in disruptions to its production facilities, claims for damages and fines.

Given its activities and the industries in which it operates, the Group faces risks associated with pharmaceuticals manufacturing and the related storage and transportation of raw materials, products and wastes. These risks include, but are not limited to, accidents, explosions, fires, lightning, transport risks, terrorist attacks, natural disasters, mechanical or other operational failure, pipeline leaks and ruptures, storage tank leaks, spills, and other discharges or releases of dangerous substances or gases. These events could lead to personal injury, loss of life, environmental or property damage, or a material interruption or suspension of operations, and may result in increased mitigation expenses, a reduction in profitability, and the imposition of civil or criminal penalties, including governmental fines, expenses for remediation and claims brought by governmental entities, employees or other third parties. In many jurisdictions, such as in the United States, these risks are amplified by the frequency of class actions and high damages awards.

In addition, the occurrence of any such event could be seriously detrimental to the Group's reputation and could harm its ability to obtain or maintain its existing licences or its key commercial, regulatory, and governmental relationships. Disruptions at one or more production facilities may also interrupt production further down the production chain and lead to lower volumes and sales, and potentially the loss of market share. The costs associated with any of these events may be substantial and could exceed or otherwise not be covered by the Group's insurance coverage.

Furthermore, improper handling of dangerous substances by the Group or its customers may lead to the release of various substances, which may in turn result in stricter regulation or a prohibition of the use of such substances. Any of the foregoing could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

Local conditions, events, adverse weather conditions, natural disasters and other disruptions could adversely affect the Group's business.

The Group has manufacturing sites around the world. Its manufacturing operations may be subject to disruptions within or beyond their control, including: pandemics, adverse local conditions, climate change, adverse weather conditions, floods, fire, natural disaster, civil unrest, labour stoppages and terrorist activity. Several of the countries in which the Group operates are subject to border or internal civil conflicts or unrest, which could also affect the Group's operations. Any disruption of the Group's operations resulting from any of these events or factors could limit its ability to quickly shift production to other sites. For example, capacity constraints or regulatory requirements could cause significant delays in manufacturing and the loss of sales and customers. In addition, the Group could suffer a loss of sales or other negative impact on its business as a result of its customers or suppliers being affected by any of these events.

The Group is subject to risks arising from legal disputes, including contractual claims and product liability claims relating to product defects.

Companies in the pharmaceuticals and manufacturing industries are subject to the risk of lawsuits, including class actions, alleging negligence, product liability, violations of warranty obligations and other contractual or statutory claims relating to product defects. Such lawsuits may include claims based on personal injury or death alleged to be caused by a product, service or technology of the Group, in particular pharmaceuticals products, or by products incorporating the Group's products, services or technologies which are marketed or distributed by customers of the Group. These lawsuits often involve claims for substantial amounts of damages, including compensation for consequential damage and substantial costs for legal representation. In addition, pharmaceutical and other healthcare products may be the subject of recalls or patent infringement suits. For this reason, there can be no assurance that extensive claims will not be asserted against the Group in the future or that large scale product recall measures will not be necessary. The Group may not have sufficient insurance to mitigate for such a contingency. Accordingly, the Group cannot assure that the risks inherent to any potential product liability claim or product recall will be mitigated in all circumstances.

The Group's business may be adversely affected by the detrimental outcome of legal disputes and investigations by government agencies, the outcomes of which are not certain. Litigation risks include, among others, risks in the areas of competition and antitrust law, pharmaceutical law, patent law, tax law, and environmental protection.

Certain countries in which the Group will operate have a special legal framework for pharmaceutical products that could increase the risk of product liability claims being asserted and/or the ultimate costs of defending against such claims. In

addition, the Group could incur significant expenses based on product liability claims, other violations of duties of care or contractual provisions, recall measures or penalties imposed for these reasons by public authorities. These events could also adversely affect the Group's reputation and therefore reduce market acceptance of its products, services or technologies.

Certain of the Group's products contain or contained substances that may be toxic or otherwise hazardous to the health of certain persons. The health of persons, including the Group's employees, who come into contact with such substances or with the Group's products directly or through products of the Group's customers may be impaired, especially as a result of exposure to such hazardous substances, the incorrect use of such products or because of product characteristics that are as yet unknown, and such health impairments may even be life-threatening. These factors, either individually or in aggregate, have resulted and may result in actions being brought against the Group and may have a material adverse effect on its business, results of operations, financial condition and prospects.

The products, services and technologies the Group provides are highly exacting and complex, and if the Group encounters problems providing them or any support that is required, its business could suffer.

The products, services and technologies the Group provides are highly exacting and complex. From time to time, problems may arise in connection with facility operations or during preparation or provision of a product, service or technology, in each case for a variety of reasons including, but not limited to, equipment malfunction, failure to follow specific protocols and procedures, problems with raw materials or environmental factors, contamination of facilities and damage to, or loss of, manufacturing operations. Such problems could affect production of a particular batch or series of batches, requiring the destruction of products, or could halt facility production altogether. These failures could, among other things, lead to increased costs, lost revenue and earnings, damage to customer relations, time and expense spent investigating the cause and, depending on the cause, similar losses with respect to other batches or products. If problems are not discovered before a product is released to the market, recall and product liability costs may also be incurred. In addition, such risks may be greater at facilities that are new or going through significant expansion or renovation.

Tax legislation initiatives or challenges to the Group's tax positions could adversely affect its business, results of operations, financial condition and prospects.

The Group operates in a number of different countries around the world. As such, it will be subject to the tax laws and regulations of, among others, the European and United States federal, state and local governments and of many international jurisdictions. From time to time, various legislative initiatives may be proposed that could adversely affect the Group's tax position. There can be no assurance that the Group's effective tax rate or tax payments will not be adversely affected by these initiatives.

Any of the foregoing could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Group may not be able to adequately protect its intellectual property, proprietary manufacturing technology and know-how.

The Group owns a large number of patents and other intellectual property rights which may be invalidated, circumvented or challenged. Although there is a general legal presumption that patents are valid, this does not necessarily mean that a patent or any other intellectual property right will ultimately be upheld as valid or that any related claims can be enforced as necessary or desired. Third parties may infringe on the Group's patents or other intellectual property rights, and the Group may not be able to prevent any such infringement. If the Group fails to adequately protect its intellectual property rights, technology and know-how, competitors may use such rights, technology and know-how to manufacture and offer similar products or services, which could adversely affect the Group's competitive position and results of operations. In addition, the Group cannot guarantee that all of the patents it has applied for, or plans to apply for, will be granted in each of the countries in which it seeks protection. Furthermore, patents generally expire after a certain period, allowing competitors to freely use the patented technology.

If the Group is unable to protect its intellectual property, its ability to profit from its research and development may be limited or its future profits may decrease as a result, insofar as other manufacturers can make or market products that are similar to the products developed by the Group. This could affect the Group's competitive position, and any resulting decrease in sales could have a material adverse effect on its business, results of operations, financial condition and prospects.

The Group may infringe on the intellectual property rights of third parties and, as a result, may have to pay fees for the use of third-party intellectual property, may be exposed to claims for damages, may be prevented from selling its products, or may be forced to stop its production.

The Group cannot guarantee that the Group will not infringe on, or be alleged to have infringed on, third-party patents or other third-party intellectual property rights, since its competitors also apply for, and obtain, numerous patents to protect their inventions. In the event that the Group identifies third-party patent rights that conflict with its business processes, it will

generally attempt to either challenge the patentability or the validity of the patent or to look for technical alternatives. Nevertheless, patent holders may approach the Group from time to time to allege that it has infringed on their intellectual property rights. Regardless of the merit or resolution of these claims, the Group may be prevented from making or marketing products, and it may be forced to acquire licences or modify or even stop its production, even though it may have already been using these technologies in a lawful manner in these or other jurisdictions. This may be the case, for example, if the Group has chosen not to file a patent on a particular technology in order to keep it confidential. In addition, the Group could be exposed to liability for damages.

The Group may have to obtain third-party licences to gain access to technology, which could entail considerable costs. It may be unable to acquire licences that it will need for its future business with the appropriate scope, under acceptable conditions or at all. In addition, licences the Group holds may expire or otherwise not continue to be effective, and it may be prevented from making or marketing products.

Any restrictions or disruptions in supply and production that result from actual or alleged patent infringements, whether as a result of a reorganisation of production processes or for other reasons, or the subsequent acquisition of any relevant licences, could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Group relies on the proper functioning of its computer and data processing systems, and a large scale malfunction or potential unauthorised access to critical and sensitive information could result in disruptions to the Group's business.

The Group's ability to keep its businesses operating depends on the functional and efficient operation of its computer and data processing and telecommunications systems around the world. Computer and data processing systems are susceptible to malfunctions and interruptions (including due to equipment damage, power outages, fire, natural disasters, breakdowns, malicious attacks, computer viruses, and a range of other hardware, software and network problems), and the Group may be unable to prevent malfunctions or interruptions. A significant or large scale malfunction or interruption of its computer or data processing systems could disrupt the Group's operations, for example by causing delays or the cancellation of customer orders, impeding the manufacture or shipment of products, the processing of transactions and the reporting of financial results, or could damage the Group's reputation.

In addition, the Group faces the risk of potential unauthorised access to, and the loss of, critical and sensitive information, for example as a result of industrial espionage activities or hacking attacks. A leak of confidential information or the loss of critical and sensitive information could reveal trade secrets or know-how of the Group or its customers to competitors and harm the Group's business, competitive position and reputation. The Group's insurance may not adequately compensate it for all losses or failures that may occur. Any of the foregoing could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Group has engaged in acquisitions and divestitures of businesses, companies and equity interests in companies in the past, and the Group may engage in acquisition activities or divestitures in the future, and there can be no assurance that such acquisitions or divestitures will yield the desired results.

In the past, the Group has engaged in acquisitions and divestitures of businesses, companies and equity interests in companies. The Group continually evaluates possible acquisitions and divestitures, and therefore considers it probable that acquisition activities or divestitures will occur in future.

Acquisitions take up management attention and resources, and may expose the Group to potential risks and liabilities, both in relation to undertaking the acquisition process (for example, as the Group may be required to obtain financing or competition approval) but also by potentially bringing into the Group historical risks and liabilities of the target (including but not limited to regulatory compliance and environmental liabilities, which are notable in the industry in which the Group operates). The Group may also be more likely to be exposed to risks and liabilities in the context of acquisitions because it seeks to expand its operations into new jurisdictions, where the Group may be less familiar with relevant conditions. Any failure to successfully integrate acquisitions into the Group may also result in the loss of key customers, or the failure to realise anticipated financial benefits.

Divestitures also take up management attention and resources. In addition, proposed divestitures that fail to complete may result in a negative impact on customer relationships and the continued presence in the Group of loss-making or under-performing divisions. Completed divestitures, such as the Lonza Specialty Ingredient Disposal, may expose the Group to potential liabilities such as in connection with completion adjustments, warranty claims and potential litigation.

Given that it is probable that the Group will undertake an acquisition or divestiture in future, it is likely that the Group will be exposed to the risks noted above. To the extent these risks materialise, or liabilities arise, this could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Group is subject to risks, including reputational, financial and legal risks associated with joint ventures and joint venture partners.

The Group has entered, and may continue to enter, into arrangements subject to joint control, such as joint ventures. The Group is regularly in discussions with a number of pharmaceutical companies for the purpose of exploring new business models and concepts, including but not limited to strategic joint ventures and other joint arrangements by which it may share control with another entity (collectively for the purposes of this risk factor, **Joint Ventures**).

Various entities within the Group depend on various counterparties to joint ventures entered into by the Group for capital, product distribution, local market knowledge, product know-how or other resources. The Group's joint venture partners may (i) have economic or business interests or goals that are inconsistent with those of the Group; (ii) take actions contrary to the Group's instructions or requests or contrary to its policies or objectives; (iii) be unable or unwilling to fulfil their obligations under the relevant joint venture agreement, including providing the necessary resources to the joint venture; or (iv) have financial difficulties.

If a serious dispute arises with one of the Group's joint venture partners, or a serious problem arises in one of its joint ventures, including due to the factors set out above, the Group may suffer the loss of business opportunities or disruption to or termination of the relevant joint venture (or the project carried out by such joint venture). A dispute may also give rise to litigation or other legal proceedings, which would divert the Group's management's attention and other resources. Any of the above may have a material and adverse effect on the Group's reputation, business, results of operations, financial condition and prospects.

The Group is dependent upon its employee base and its key personnel for its growth.

The Group's economic success will depend in part on its ability to retain or employ an experienced, highly skilled and diverse employee base in addition to highly qualified executives and technical experts, in particular in the area of manufacturing and operations. The competition for qualified employees in the life sciences industry is intense and the Group will compete for employees with companies both in and outside the life sciences industry. In addition, due to the imbalance between the supply of qualified employees and the demand for qualified employees, the Group may face employee turnover and retention that is higher than historical norms. Accordingly, the termination of the employment or the loss of the services of any significant number of employees or key personnel without a timely and suitable replacement or the inability to attract and retain qualified personnel may have a material and adverse effect on the Group's business, results of operations, financial condition and prospects.

Legal and regulatory changes in the jurisdictions in which it operates and trades may have an adverse effect on the Group.

Due to the international nature of its business, the Group and its operations, it must comply with, and is affected by, a large number of different legal and regulatory frameworks, including tax laws. There is a risk that changes in these frameworks of the agencies that oversee or regulate the industries in which the Group operates, and in which the Group will operate, may materially adversely affect the Group's legal and regulatory environment.

Changes in the regulatory environment may prevent the Group from marketing certain of its products or may negatively affect demand for its products and/or services, which could in turn have a material adverse effect on its business, results of operations, financial condition and prospects. In addition, to the extent laws and regulations applicable to the Group are uncertain and evolving, it may be difficult for the Group to determine the exact requirements applicable to it, or to structure its transactions in such a way that the results it expects to achieve are legally enforceable in all cases.

The Group's balance sheet includes significant goodwill and intangible assets, which could become impaired.

The Group has significant goodwill and intangible assets on its balance sheet. The intangible assets include trademarks acquired through business combinations, which have an indefinite useful life and are not systematically amortised. Goodwill and intangible assets with indefinite useful lives are reviewed annually for impairment. Impairment charges could become necessary in the future if, for example, the Group's future prospects deteriorate such that the carrying values of its goodwill or intangible assets are no longer sustainable under applicable accounting rules. A significant impairment of the Group's goodwill or intangible assets could have a material adverse effect on its business, results of operations, financial condition and prospects.

The Group may be exposed to pension risk in relation to its pension plans.

The Group operates pension plans, which for accounting purposes are considered defined benefit pension plans, in various countries, with the major plans being in Switzerland and Great Britain. Pension risk arises if the net present value of future cash outflows is greater than the current value of the asset pool set aside to cover those payments.

The primary sources of pension risk include a mismatch in the duration of the assets relative to the liabilities of the pension schemes, market-driven asset price volatility and increased life expectancy of individuals leading to increased liabilities.

As a result of these factors, the Group faces the risk that the funding position of its pension schemes will deteriorate to such an extent that it would be required to make additional contributions above what is already planned to cover its pension obligations. Any failure by the Group to manage its pension deficit could have a material adverse effect on its business, results of operations, financial condition and prospects.

The Group has implemented reorganisations of businesses and/or entities within the Group in the past, and the Group may implement such reorganisations in the future, and there can be no assurance that such reorganisations will yield the desired results.

In the past, the Group has implemented reorganisations of businesses and/or entities within the Group.

Any reorganisation undertaken by the Group, is likely to involve significant investments and risks including, but not limited to, requiring a significant amount of management time (which may affect or impair the management's ability to run the entity or business effectively during the period of implementation) and not being able to have, or losing, key personnel with the appropriate skills as part of implementing the reorganisation. There is a possibility that if a reorganisation undertaken by the Group, is not successfully implemented, key customers will be lost, or that anticipated cost savings, synergies or other benefits will not be realised in time or at all.

The occurrence of any of these risks may have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The major sources of the Group's revenues are concentrated among a limited number of products groups and customers. If the market for these products groups changes, or if customers benefit from increased negotiating power, the Group's revenues may decline.

Similarly, certain markets in which the Group's LPBN segment offers its products, services and technologies are characterised by a small number of major customers, and that segment depends on contracts with a relatively small number of customers for a large percentage of its revenues.

Any customer concentration which results in customers using their power to exert pressure on the Group's prices may, particularly in relation to the Group's LPBN segment, adversely affect profitability, which could have a material adverse effect on the Group's business, results of operations, financial condition and prospects.

The Group's leverage and debt service obligations could materially affect its business.

As at 30 June 2023, the Group had a net leverage ratio (Net debt / CORE EBITDA calculated on the CORE EBITDA of the last 12 months) of 0.3 times. Although the Group's current net leverage ratio is currently low, it may not be excluded that the net leverage ratio might be significantly higher in the future, for example, as a result of a major acquisition. The degree to which the Group remains leveraged could have important consequences for its business.

The Group requires various licences and permits to operate its business.

The Group requires various licences and permits in the jurisdictions in which it operates. These licences and permits are generally subject to conditions stipulated in the licences and permits and/or relevant laws or regulations under which such licences and permits are issued. Any actual or alleged failure to comply with the stipulated conditions could result in the revocation or non-renewal of the relevant licence or permit.

The Group constantly monitors and ensures its compliance with such conditions. Should there be any revocation of any of the licences and permits, or the failure to obtain or procure any necessary licences and permits, the Group may not be able to carry out its operations in the relevant jurisdiction. In such an event, the business, results of operations, financial condition and prospects of the Group could be materially and adversely affected.

The Group is subject to environmental, health and safety laws and regulations and could therefore be exposed to heightened compliance costs and the risk of liability due to non-compliance.

The Group is subject to a variety of environmental, health and safety laws and regulations in each of the jurisdictions in which it operates. In particular, the Group will be subject to a number of continually changing and increasingly stringent local, state, and international environmental and health protection requirements with regard to, among other things, air emissions, wastewater discharges and the use, handling and disposal of chemicals and hazardous substances. Compliance with such regulations can require significant expenditures and a breach may result in the limitation or suspension of production or subject the Group to material monetary fines and penalties, civil or criminal sanctions, or other liabilities. Furthermore,

environmental laws may expose the Group to liability for the conduct of or conditions caused by others, and some environmental laws provide for joint and several strict liability for releases of hazardous substances into the environment, which could result in liability for environmental damage without regard to negligence or fault. Environmental legislation is evolving in a manner that is expected to result in stricter standards and enforcement, larger fines and increased liability, and potentially increased capital expenditures and operating costs for compliance. Environmental laws and regulations may result in an increase in the costs of the operations of the Group.

The costs of the remediation and/or containment of pollution for which the Group is held liable, or the reputational damage associated with any such pollution, could materially adversely affect its business, results of operations, financial condition and prospects.

Regulatory developments with respect to use of personal data and public records could have a material adverse effect on the Group's business, financial condition and results of operations.

Because the Group's databases and the databases of third-party service providers that it works with include certain non-public personal or commercial information concerning its employees, vendors and customers, the Group is subject to government regulation concerning the improper storage, transmission and use of this data. Failure to comply with these laws by the Group could result in substantial regulatory penalties, litigation expenses, adverse publicity and loss of revenue. In addition, if such information were compromised as a result of a hacking incident or other cyber breach of the Group's systems, the Group could also be found liable for such breach if the Group did not have appropriate safeguards in place to protect such data and records. Further, many consumer advocates, privacy advocates and government regulators believe that existing laws and regulations do not adequately protect privacy. As a result, they are seeking further restrictions on the dissemination and commercial use of personal information to the public and private sectors. Regulations regarding privacy and data protection may also become stricter in the future. For example, the European Union has adopted a General Data Protection Regulation, Regulation (EU) 2016/679 (the **GDPR**). The GDPR has introduced significant changes to the data protection regime of the EU, for example, higher potential liabilities for certain data protection violations.

Any such restrictions may increase compliance burdens on the Group and reduce the Group's ability to market its products, services and technologies, which could have a material adverse effect on its business, financial condition and results of operations.

Violation of anti-corruption laws and anti-boycott regulations could materially and adversely affect the Group's reputation, business, results of operations, financial condition and prospects.

The Group's international operations are subject to anti-corruption laws and anti-boycott regulations. In certain countries in which the Group does business, the Group is exposed to a heightened risk of violating anti-corruption laws and regulations. Violations of anti-corruption laws and sanctions regulations are punishable by civil penalties, including fines, denial of export privileges, injunctions, asset seizures, debarment from government contracts and revocations or restrictions of licences, as well as criminal fines and imprisonment. There can be no assurance that the Group's policies and procedures will effectively prevent it from violating these laws and regulations in every transaction in which it may engage, and such a violation could materially and adversely affect the Group's reputation, business, results of operations, financial condition and prospects.

The Group is subject to labour and employment laws and regulations, which could increase its costs and restrict the Group's operations in the future.

Certain of the Group's employees are represented by labour organisations. National works councils and/or labour organisations are active at certain of its European facilities consistent with labour environments/laws in European countries. Similar relationships with labour organisations or national works councils exist at all of the Group's facilities. The Group's management believes that its employee relations are satisfactory. However, further organising activities or collective bargaining may increase its employment-related costs and the Group may be subject to work stoppages and other labour disruptions. Moreover, as employers are subject to various employment-related claims, such as individual and class actions relating to alleged employment discrimination, wage-hour and labour standards issues, such actions, if brought against the Group and successful in whole or in part, may affect its ability to compete or have a material adverse effect on its business, financial condition and results of operations.

Risks relating to the Bonds

The Guarantor is a holding company and will depend on the business of its subsidiaries to satisfy its obligations under the Guarantee

The Guarantor is a holding company and it has no significant assets other than its ownership interests in the Issuer and its other subsidiaries. Consequently, the ability of the Guarantor to meet its financial obligations under the Guarantee is dependent upon the availability of cash flows from its subsidiaries and affiliated companies through dividends, intercompany advances and other payments. The Guarantor's direct and indirect subsidiaries are separate and distinct legal entities and, under certain circumstances, legal and contractual restrictions may limit the ability of these subsidiaries to provide the

Guarantor with funds for the Guarantor's payment of its obligations under its securities, such as the Guarantee, whether by dividends, distributions, loans or other payments.

The Guarantor cannot assure potential investors that the operating results of its subsidiaries at any given time will be sufficient to make dividends, distributions or other payments to it or that any such dividends, distributions or other payments will be adequate to pay its obligations under the Guarantee and its other indebtedness when due.

In the event of a bankruptcy, liquidation, reorganization or similar proceeding relating to a subsidiary of the Guarantor, the right of Holders to participate in a distribution of the assets of such subsidiary will rank behind such subsidiary's creditors (including trade creditors), except to the extent that the Guarantor has direct claims against such subsidiary. In the case of any of the foregoing events, there can be no assurance that there will be sufficient assets to pay amounts due under the Guarantee.

An investment in the Bonds involves risks relating to changes in the interest rate environment

The Bonds bear interest at a fixed rate, which means that an investment in the Bonds involves the risk that if market interest rates subsequently increase above such fixed rate of interest, the real return on (and value of) the Bonds will be adversely affected.

The terms of the Bonds and the Guarantee contain no restriction on the amount or type of further securities or indebtedness that the Issuer or the Guarantor may issue

Neither terms of the Bonds nor the terms of the Guarantee contain any restriction on the amount or type of further securities or indebtedness that the Issuer or the Guarantor may issue, incur or guarantee that rank senior to, or *pari passu* with, the Bonds or the Guarantee, respectively. The issue or guaranteeing of any such further securities or indebtedness may limit the ability of the Issuer to meet its obligations under the Bonds, or the Guarantor to meet its obligations under the Guarantee, as the case may be, and may reduce the amount recoverable by Holders under the Bonds or the Guarantee upon a liquidation or winding-up of the Issuer or the Guarantor.

The Issuer may, without consent of the Holders, substitute a controlled Swiss subsidiary of the Issuer or Guarantor as issuer under the Bonds

Under the Bonds, the Issuer may, without the consent of the Holders and subject to certain conditions, substitute for itself any direct or indirect controlled Swiss subsidiary of the Issuer or Guarantor as issuer of the Bonds. So long as the conditions described in the terms of the Bonds are satisfied, such subsidiary may be an entity having a different form from the Issuer. In such a case, the rights of Holders may differ from the rights of Holders against the Issuer. As a result, Holders may be required to comply with legal procedures for making a claim or enforcing an action against such subsidiary specific to the form of incorporation of such subsidiary that differ from the legal procedures required for making a claim or enforcing an action against the Issuer.

In certain instances, Holders may be bound by certain amendments to the Bonds to which they did not consent

The Bonds are subject to statutory provisions of Swiss law allowing for the calling of meetings of Holders to consider matters affecting their interests. These provisions permit defined majorities to bind all Holders of the Bonds, including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority. Pursuant to the relevant statutory provisions of Swiss law as in effect as of the date hereof, (i) the Issuer will be required to provide Holders with at least ten days' notice of any meeting of Holders, (ii) the Issuer will be required to call a meeting of Holders within 20 days if it is requested to do so by Holders holding an aggregate principal amount of Bonds that represents at least one-twentieth of the outstanding aggregate principal amount of the Bonds, and (iii) only Holders or their proxies will be entitled to attend or vote at a meeting of Holders.

In addition, the Holder approval requirements under the relevant statutory provisions of Swiss law as in effect as of the date hereof for amendments to the terms of the Bonds will depend on the type of amendment. Pursuant to article 1170 of the Swiss Code of Obligations, the consent of Holders holding at least two-thirds of the outstanding aggregate principal amount of the Bonds is required for any resolution limiting Holders' rights under the Bonds (such as a moratorium on interest or capital and certain amendments to the interest provisions). In addition, in order to become effective and binding on the non-consenting Holders, any such resolution must be approved by the competent superior cantonal composition court. In the case of resolutions that do not limit Holders' rights under the Bonds, pursuant to article 1181 of the Swiss Code of Obligations, an absolute majority of the votes represented at a meeting of Holders is sufficient to approve any such resolution, unless article 1170 of the Swiss Code of Obligations or the terms of the Bonds provide for more stringent requirements.

An active trading market for the Bonds may not develop

The Bonds will be new securities, which may not be widely distributed, and for which there is currently no active trading market. An active trading market for the Bonds may never develop, or if one does develop, it may not be sustained or it may not be liquid. Therefore, investors may not be able to sell their Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

Although application will be made for the admission to trading and listing of the Bonds on the SIX Swiss Exchange, there can be no assurance that such application will be accepted or that an active trading market in the Bonds will develop. Accordingly, there can be no assurance as to the development or liquidity of any trading market for the Bonds. Illiquidity may have a severely adverse effect on the market value of the Bonds.

The market value of the Bonds may be influenced by unpredictable factors

Many factors, most of which will be beyond the control of the Issuer and the Guarantor, will influence the value of the Bonds and the price, if any, at which securities dealers may be willing to purchase or sell the Bonds in the secondary market, including:

- (i) the creditworthiness of the Issuer and the Guarantor and, in particular their results of operations, financial condition and liquidity profile;
- (ii) supply and demand for the Bonds, including inventory with any securities dealer; and
- (iii) economic, financial, political or regulatory events or judicial decisions that affect the Issuer or the Guarantor or the financial markets generally.

Accordingly, if a Holder sells its Bonds in the secondary market, it may not be able to obtain a price equal to the principal amount of such Bonds or a price equal to the price that it paid for such Bonds.

The Issuer's credit ratings may not reflect all risks of an investment in the Bonds

The Issuer's credit ratings may not reflect the potential impact of all risks relating to the market values of the Bonds. However, real or anticipated changes in an Issuer's credit rating will generally affect the market values of the Bonds or may result in a downgrade in the ratings for the Bonds. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisors to determine whether and to what extent (i) the Bonds are lawful investments for it, (ii) the Bonds can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Bonds.

In addition, financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Bonds under any applicable risk-based capital or similar rules.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Bonds in CHF. This presents certain risks relating to currency conversions if the financial activities of an investor in the Bonds are denominated principally in a currency or currency unit (the **Investor's Currency**) other than CHF. These include the risk that exchange rates may significantly change (including changes due to revaluation of the CHF or devaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to Euro would decrease (i) the Investor's Currency-equivalent yield on the Bonds, (ii) the Investor's Currency-equivalent value of the principal payable on the Bonds, and (iii) the Investor's Currency-equivalent market value of the Bonds.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors in the Bonds may receive less interest or principal than expected, or no interest or principal.

TERMS OF THE BONDS (TRANCHE A)

The terms and conditions of the bonds (each a **Condition**, and together the **Terms of the Bonds**) issued by the Issuer and unconditionally and irrevocably guaranteed by the Guarantor, are as follows:

1 Amount and Reopening, Form of the Bonds, Denomination, Custodianship and Transfer of the Bonds

- (a) The initial aggregate principal amount of the Bonds of Swiss francs (**CHF**) 185,000,000 (in words: hundred and eighty five million Swiss francs) (the **Aggregate Principal Amount**) is divided into bonds (each a **Bond** and collectively the **Bonds**) with denominations of CHF 5,000 (five thousand Swiss francs) per Bond and integral multiples thereof.

The Issuer reserves the right to reopen (the **Reopening**) and increase the Aggregate Principal Amount at any time and without prior consultation of or permission of the holders of the bonds (the **Holder**s and, individually, a **Holder**) through the issuance of further bonds which will be fungible with the Bonds (i.e. identical especially in respect of the Terms of the Bonds, security number, final maturity and interest rate).

- (b) The Bonds are issued as uncertificated securities (*Wertrechte*) in accordance with art. 973c of the Swiss Code of Obligations.

Such uncertificated securities (*Wertrechte*) will then be entered by the Principal Paying Agent into the main register (*Hauptregister*) of SIX SIS or any other intermediary in Switzerland recognised for such purposes by SIX Swiss Exchange (SIX SIS or any such other intermediary, the **Intermediary**). Once the uncertificated securities (*Wertrechte*) are registered in the main register (*Hauptregister*) of the Intermediary and entered into the accounts of one or more participants of the Intermediary, the Bonds will constitute intermediated securities (*Bucheffekten*) (**Intermediated Securities**) in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

- (c) So long as the Bonds are Intermediated Securities (*Bucheffekten*), the Bonds may only be transferred by the entry of the transferred Bonds in a securities account of the transferee.
- (d) The records of the Intermediary will determine the number of Bonds held through each participant of that Intermediary. In respect of Bonds held in the form of Intermediated Securities, the Holders will be the persons holding the Bonds in a securities account (*Effektenkonto*) which is in their name, or in case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding the Bonds for their own account in a securities account (*Effektenkonto*) which is in their name.
- (e) The conversion of the uncertificated securities (*Wertrechte*) into a permanent global certificate (*Globalurkunde*) or individually certificated bonds (*Wertpapiere*) is excluded. Neither the Issuer nor the Holders nor the Principal Paying Agent nor any third party shall at any time have the right to effect or demand the conversion of the uncertificated securities (*Wertrechte*) into, or the delivery of a permanent global certificate (*Globalurkunde*) or individually certificated securities (*Wertpapiere*). No physical delivery of the Bonds shall be made.

2 Interest

The Bonds bear interest from (but excluding) 16 November 2023 (the **Issue Date**) until (and including) the Maturity Date (as defined below) at the rate of 2.25 per cent of their Aggregate Principal Amount per annum, payable annually in arrear on 16 May of each year (the **Interest Payment Date**), for the first time on 16 May 2024. There will be a short first interest period from (and including) 16 November 2023 (the issue date of the existing bonds) to (but excluding) the first Interest Payment Date. Interest on the Bonds is computed on the basis of a 360-day year of twelve 30-day months.

3 Redemption, Purchase and Cancellation

- (a) Redemption at Maturity

Unless previously redeemed, the Issuer undertakes to repay all outstanding Bonds at par, without further notice on 16 May 2028 (the **Maturity Date**).

- (b) Redemption at the Option of the Issuer

Subject to a period of not less than thirty (30) nor more than sixty (60) days' prior notice to the Principal Paying Agent, the Issuer may redeem the Bonds at any time after the Issue Date and prior to the Maturity Date, in whole, but not in part only, at par of their Aggregate Principal Amount plus accrued interest, if any, on the date determined by the Issuer for early redemption, if eighty-five (85) per cent or more of the Aggregate Principal Amount have been redeemed or purchased and cancelled at the time of such notice.

(c) Redemption at the Option of the Holders upon Change of Control with regard to the Guarantor

(A) A **Change of Control** occurs when:

- (a) an offer to acquire issued and fully paid Shares, whether expressed as a public takeover offer, a merger or similar scheme with regard to such acquisition, or in any other way, is made in circumstances where (i) such offer is available to (a) all holders of Shares, (b) all holders of Shares other than the offeror and any persons acting in concert with such offeror or (c) all holders of Shares other than persons who are excluded from the offer by reason of being connected with one or more specific jurisdictions, and (ii) such offer having become or been declared unconditional in all respects, the Guarantor becomes aware that the right to cast more than 50 per cent of all the voting rights (whether exercisable or not) of the Guarantor has become unconditionally vested in the offeror and any persons acting in concert with the offeror; or
- (b) the Guarantor consolidates with or merges into any other company save where, following such consolidation or merger, shareholders of the Guarantor immediately prior to such consolidation or merger have the right to cast 50 per cent or more of the voting rights (whether exercisable or not) of such other company; or
- (c) the legal or beneficial ownership of all or substantially all of the assets owned by the Guarantor, either directly or indirectly, are acquired by one or more other persons acting in concert.

Shares pursuant to this section means issued and fully paid registered shares of currently CHF 1.00 par value each of the Guarantor (and all other (if any) shares or stock resulting from any subdivision, consolidation or reclassification of such shares) which as between themselves have no preference in respect of dividends or amounts payable in the event of any voluntary or involuntary liquidation or dissolution of the Guarantor.

(B) Upon a Change of Control:

the Guarantor shall forthwith, or, if it is not clear at that point in time whether the Holders are entitled to exercise their redemption rights pursuant to sub-clause (C) below because the Guarantor's BBB+ rating (or better) by Standard and Poor's or the equivalent by Moody's or Fitch is not yet available, immediately following the receipt of the rating decision of the relevant rating agency or after two months, whatever is earlier, give notice of that fact to the Holders (the **Change of Control Notice**) in the form set out in Condition 11. The Change of Control Notice shall:

- (a) inform the Holders of their right to require redemption of the Bonds pursuant to sub-clause (C) below;
- (b) specify the date (the **Change of Control Redemption Date**), being not more than sixty (60) and not less than thirty (30) days after giving such notice, on which the Bonds may be redeemed at the option of the Holders pursuant to sub-clause (C) below; and
- (c) provide details concerning the Change of Control, including to specify the relevant office of the Principal Paying Agent (the **Specified Office**) for the purposes of sub-clause (C) below.

(C) Early Redemption at the Option of Holders upon Change of Control

Upon the occurrence of a Change of Control, the Guarantor will at the option of a Holder, redeem such Bond at its Principal Amount on, together with interest accrued up to, the Change of Control Redemption Date unless,

- (a) in the event of a merger or consolidation of the Guarantor, (i) the surviving entity has or receives a rating of at least BBB+ by Standard & Poor's or the equivalent by Moody's or Fitch for its senior unsecured long-term debt on a consolidated basis, (ii) assumes or keeps, as the case may be, the Guarantor's obligations under the Bonds pari passu with its own senior obligations, or
- (b) in the event of an offer to acquire the Guarantor's Shares as described in sub-clause (A) above, the acquirer (i) has a rating of at least BBB+ by Standard & Poor's or the equivalent by Moody's or Fitch for its senior unsecured long-term debt or receives such a rating on a consolidated basis after giving effect to the acquisition, (ii) the acquirer assumes the Guarantor's obligations under the Bonds pari passu with its own senior obligations.

It is understood that where no rating exists for the senior unsecured long term debt of the surviving entity, the acquiring entity or the Guarantor, as the case may be, or a rating is not received within a period of two months since the occurrence of a Change of Control, respectively, then the Holders shall have a redemption right as described in the first sentence of this sub-clause (C).

To exercise such option, a Holder must present at the Specified Office a duly completed redemption notice in the form obtainable at the Specified Office of the Principal Paying Agent (a **Change of Control Redemption Notice**), together with clearing instructions in a form satisfactory to the Principal Paying Agent allowing for the transfer of the relevant Bond(s) through SIX SIS to the Principal Paying Agent by not later than fourteen (14) days prior to the Change of Control Redemption Date. No Bond or Change of Control Redemption Notice so deposited may be withdrawn without the consent of the Issuer.

(d) Purchases

The Issuer, the Guarantor or any of their respective Subsidiaries may, either directly or indirectly, at any time purchase Bonds at any price, in the open market or otherwise. Any purchase shall be made in accordance with applicable laws or regulations, including applicable stock exchange regulations. Such Bonds may be held, resold or, at the option of the Issuer, surrendered to the Principal Paying Agent for cancellation as set out below.

(e) Cancellation

All Bonds which are redeemed or surrendered to the Principal Paying Agent for cancellation shall forthwith be cancelled. All Bonds so cancelled cannot be reissued or resold.

(f) Notice

Where the provisions of this Condition 3 provide for the giving of notice by the Issuer to the Principal Paying Agent, such notice shall be deemed to be validly given if made in writing with all required information to the Principal Paying Agent within the prescribed time limit. Such notices shall be announced to the Holders as soon as practicable pursuant to Condition 11. Such notices shall be irrevocable.

4 Payments

The amounts required for payments with respect to the Bonds will be made available in good time in freely disposable CHF which will be placed at the free disposal of the Principal Paying Agent on behalf of the Holders. If the due date for any payment by the Issuer does not fall on a Business Day, the Issuer undertakes to effect payment for value the Business Day immediately following such due date and the Holders will not be entitled to any additional sum in relation thereto. All payments with respect to the Bonds will be made to the Holders in CHF without collection costs.

The receipt by the Principal Paying Agent of the due and punctual payment of the funds in CHF as above provided shall release the Issuer and the Guarantor of their payment obligations under the Bonds to the extent of such payments.

If the Bonds are not redeemed when due, interest shall continue to accrue until (and including) the day when the Bonds are redeemed.

5 Statute of Limitations

In accordance with Swiss law, claims for interest payments shall become time-barred after a period of five (5) years and claims for the repayment or redemption of Bonds after a period of ten (10) years, calculated from their respective due dates.

6 Taxation

7 Status of the Bonds and Negative Pledge

(a) Status

The Bonds constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer, rank *pari passu* among themselves and with all other present or future unsecured and unsubordinated obligations of the Issuer, except for such preferences as are provided for by any mandatorily applicable provision of law.

(b) Negative Pledge

So long as any of the Bonds remain outstanding, neither the Issuer nor the Guarantor will, and the Guarantor will procure that no Material Subsidiary of the Guarantor will, create or have outstanding any mortgage, charge, pledge, lien or other form of encumbrance or security interest, upon the whole or any part of its assets or revenues, present or future, to secure any Relevant Debt or to secure any guarantee or indemnity in respect of any Relevant Debt unless, at the same time or prior thereto, the Issuer's or, as the case may be, the Guarantor's obligations under the Bonds (in the case of the Issuer) or the Guarantee (in the case of the Guarantor) (i) are secured equally and rateably therewith by such encumbrance or security interest or benefit from a guarantee or indemnity in substantially identical terms thereto, as the case may be, or (ii) have the benefit of such other

security, guarantee, indemnity or other arrangement as shall be approved by an extraordinary resolution of the Holders.

For the purposes of this Section 7, **Relevant Debt** means any present or future financial indebtedness of the Issuer, the Guarantor and its Material Subsidiaries, in the form of, or represented by, notes, bonds, debentures, loan stock or other securities, which are for the time being, or are capable of being, quoted, listed or ordinarily dealt with on any stock exchange, over-the-counter or other securities market.

8 Events of Default

If any of the following events (each event an **Event of Default**) shall occur, UBS in its capacity as Holders' representative (the **Holder's Representative**) has the right but not the obligation, on behalf of the Holders, to declare all outstanding Bonds immediately due and repayable at par plus accrued interest:

- (a) there is a failure by the Issuer, failing whom the Guarantor, to pay principal and/or interest on any of the Bonds, if and when due and such failure continues for a period of twenty (20) calendar days; or
- (b) a default is made in the performance or observance of any material covenant, condition or provision which is to be performed by the Issuer under the Terms of the Bonds or by the Guarantor under the Guarantee and (except where the Holders' Representative certifies in writing that, in its reasonable opinion, such default is not capable of remedy, when no such notice or continuation as is mentioned below shall be required) such default continues for a period of twenty (20) calendar days following the service by the Holders' Representative on the Issuer or the Guarantor, of notice requiring such default to be remedied; or
- (c) any other present or future indebtedness of the Issuer or the Guarantor or of any other Material Subsidiary for or in respect of monies borrowed is not paid when due (otherwise than, where permitted under the terms of the relevant indenture or agreement, at the option of the relevant debtor) or, as the case may be, within any applicable grace period, or becomes due and payable prior to its stated maturity as a result of an event of default (howsoever described), or any security in respect of any such indebtedness become enforceable or any guarantee of, or indemnity in respect of, any such indebtedness given by the Issuer or the Guarantor or any other Material Subsidiary is not honoured when due and called upon or, as the case may be, within any applicable grace period, provided that no such event shall be taken into account for the purposes of this paragraph (c) unless the relative indebtedness, either alone or when aggregated with other indebtedness relative to all, if any, other such events which shall have occurred and are continuing shall at any time have an outstanding nominal value that equals or exceeds CHF 100,000,000 or its equivalent in any other currency or currencies (calculated on the basis of the middle spot rate for the relevant currency against CHF as quoted by any leading bank at the place of payment of such debt on the day on which this paragraph operates); or
- (d) any mortgage, lien or other encumbrance, present or future, created or assumed by the Issuer, the Guarantor or any other Material Subsidiary becomes enforceable and any step is taken to enforce it (including the taking of possession or the appointment of a receiver, manager or other similar person but not the serving of a payment order (*Zahlungsbefehl*) provided that the aggregate amount of the relevant indebtedness in respect of which such mortgage, lien or other encumbrance was created or permitted to subsist equals or exceeds CHF 100,000,000 or its equivalent in another currency or currencies (calculated on the basis of the middle spot rate for the relevant currency against CHF as quoted by any leading bank at the place of payment of such debt on the day on which this paragraph operates), and any such steps taken are not abandoned or discontinued within thirty (30) days of being taken; or
- (e) the Issuer, the Guarantor or a Material Subsidiary is (or is deemed by law or a court to be) insolvent or bankrupt or unable to pay its debts, stops or suspends payment of all or a substantial part of its debts, proposes or makes a stay of execution, a postponement of payments (*Stillhaltevereinbarung*), a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any such debts or a moratorium or postponement of payments (*Stillhaltevereinbarung*) is agreed or declared in respect of or affecting all or a substantial part of the debts of the Issuer, the Guarantor or a Material Subsidiary; or
- (f) the Issuer, the Guarantor or a Material Subsidiary alters its legal or commercial structure through bankruptcy, liquidation, disposal of all or substantially all of its assets, change in the objects of the legal entity and/or commercial activities or merger, in so far as the relevant action, in the Holders' Representative's reasonable opinion, has a material adverse effect on the capacity of (i) the Issuer to meet its obligations under the Terms of the Bonds and/or (ii) the Guarantor to meet its obligations under the Guarantee, unless the Holders' Representative considers the situation of the Holders as adequately protected based on securities created or other steps taken by the Issuer and/or the Guarantor; or
- (g) a dissolution or merger involving the Issuer or the Guarantor as result of which the Issuer or the Guarantor, as the case may be, is not the surviving legal entity, unless the successor legal entity assumes all the Issuer's or the Guarantor's liabilities in respect of the Bonds; or
- (h) the Guarantee ceases to be, or is claimed by the Guarantor not to be, in full force and effect.

The Issuer and the Guarantor undertake to inform the Holders' Representative without delay if any event mentioned under paragraph (b) through (h) has occurred and to provide the Holders' Representative with all necessary documents and information in connection therewith.

If an Event of Default occurs, the Holders' Representative has the right but not the obligation to serve a written notice of default (**Default Notice**), such notice having the effect that the Bonds shall become immediately due and payable at the Aggregate Principal Amount plus accrued interest, if any, on the day the Default Notice is given.

Upon the occurrence of an Event of Default, the Holders' Representative may invite the Holders in accordance with art. 1157 seq. of the Swiss Code of Obligations to a Holders' meeting for the taking of a resolution on the serving of a Default Notice, provided the Holders' Representative has not served such Default Notice itself. The legally valid resolution of the Holders' meeting to serve a Default Notice, shall replace the right reserved by the Holders' Representative according to these Terms of the Bonds to serve a Default Notice on behalf of the Holders. If the Holders' meeting votes against the serving of a Default Notice, the right to serve such Default Notice shall revert to the Holders' Representative whereby the Holders' Representative shall not be bound by the resolution of the Holders' meeting if and to the extent that new circumstances arise or become known which require a revised assessment of the facts.

(in the meaning of art. 111 of the Swiss Code of Obligations, hereinafter called the **Guarantee**)

- (a) Being informed that Lonza Swiss Finanz AG, Münchensteinerstrasse 38, CH-4002 Basel, (hereinafter called the **Issuer**), issued and sold 2.25 per cent Bonds (hereinafter called the **Bonds**) in the aggregate principal amount of CHF 185,000,000 due 16 May 2028, Lonza Group Ltd, Münchensteinerstrasse 38, CH-4002 Basel (hereinafter called the **Guarantor**) herewith irrevocably and unconditionally guarantees to the holders of the Bonds (hereinafter called the **Holder**s) in accordance with Article 111 of the Swiss Federal Code of Obligations, irrespective of the validity of the Bonds, the Bond Purchase Agreement and the Paying Agency Agreement prepared in relation to the Bonds (hereinafter called the **Agreements**) and waiving all rights of objection and defence arising from the Bonds and the Agreements, the due payment of the amounts payable by the Issuer under and pursuant to the Terms of the Bonds (including, without limitation, any Additional Amounts). In the event that any payments by or on behalf of the Guarantor to the Principal Paying Agent shall be made subject to withholding or deduction for any such relevant taxes, duties, assessments or governmental charges so required by law, such additional amounts (the **Additional Amounts**) shall be payable by the Guarantor as may be necessary in order that the net amounts received by the Principal Paying Agent on behalf of a Holder after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable by the Principal Paying Agent in respect of the relevant Bonds in the absence of such withholding or deduction. However, no such Additional Amounts shall be payable on account of any taxes, duties or governmental charges which:
- (i) are duly disclosed in a prospectus in relation to the Bonds, including the Swiss Federal Withholding Tax (*Verrechnungssteuer*), currently levied at a rate of thirty-five (35) per cent; or
 - (ii) are payable otherwise than by deduction or withholding from payments under this Guarantee; or
 - (iii) are payable by reason of a Holder having, or having had, some personal or business connection with Switzerland and not merely by reason of the holding of the Bonds; or

- (c) The Guarantee constitutes a direct, unconditional, unsecured and unsubordinated obligation of the Guarantor and ranks and will rank *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor except for such preferences as are provided by any mandatory applicable provision of law.
- (d) So long as any Bond remains outstanding, the Guarantor will not and the Guarantor procures that no Material Subsidiary of the Guarantor will, create or have outstanding any mortgage, charge, pledge, lien or other form of encumbrance or security interest, upon the whole or any part of its assets or revenues, present or future, to secure any Relevant Debt or to secure any guarantee or indemnity in respect of any Relevant Debt unless, at the same time or prior thereto, the Guarantee (i) is secured equally and rateably therewith by such encumbrance or security interest or benefit from a guarantee or indemnity in substantially identical terms thereto, as the case may be, or (ii) has the benefit of such other security, guarantee, indemnity or other arrangement as shall be approved by an extraordinary resolution at a bondholders' meeting pursuant to the Swiss code of obligations.

The receipt by the Principal Paying Agent of funds in Swiss francs in Switzerland from the Guarantor shall release the Guarantor from its obligations under this Guarantee to the extent of the amounts received by the Principal Paying Agent.

- (f) The Guarantee shall give rise to a separate and independent cause of action of the Principal Paying Agent acting on behalf of the Holders against the Guarantor and shall apply irrespective of any indulgence granted to the Issuer by the Principal Paying Agent or any Holders from time to time and shall continue in full force and effect notwithstanding any judgment or order against the Issuer and/or the Guarantor.

1 Amount and Reopening, Form of the Bonds, Denomination, Custodianship and Transfer of the Bonds

- (a) The initial aggregate principal amount of the Bonds of Swiss francs (**CHF**) 215,000,000 (in words: two hundred and fifteen million Swiss francs) (the **Aggregate Principal Amount**) is divided into bonds (each a **Bond** and collectively the **Bonds**) with denominations of CHF 5,000 (five thousand Swiss francs) per Bond and integral multiples thereof.

The Issuer reserves the right to reopen (the **Reopening**) and increase the Aggregate Principal Amount at any time and without prior consultation of or permission of the holders of the bonds (the **Holder**s and, individually, a **Holder**) through the issuance of further bonds which will be fungible with the Bonds (i.e. identical especially in respect of the Terms of the Bonds, security number, final maturity and interest rate).

- (b) The Bonds are issued as uncertificated securities (*Wertrechte*) in accordance with art. 973c of the Swiss Code of Obligations.

Such uncertificated securities (*Wertrechte*) will then be entered by the Principal Paying Agent into the main register (*Hauptregister*) of SIX SIS or any other intermediary in Switzerland recognised for such purposes by SIX Swiss Exchange (SIX SIS or any such other intermediary, the **Intermediary**). Once the uncertificated securities (*Wertrechte*) are registered in the main register (*Hauptregister*) of the Intermediary and entered into the accounts of one or more participants of the Intermediary, the Bonds will constitute intermediated securities (*Bucheffekten*) (**Intermediated Securities**) in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

- (e) The conversion of the uncertificated securities (*Wertrechte*) into a permanent global certificate (*Globalurkunde*) or individually certificated bonds (*Wertpapiere*) is excluded. Neither the Issuer nor the Holders nor the Principal Paying Agent nor any third party shall at any time have the right to effect or demand the conversion of the uncertificated securities (*Wertrechte*) into, or the delivery of a permanent global certificate (*Globalurkunde*) or individually certificated securities (*Wertpapiere*). No physical delivery of the Bonds shall be made.

2 Interest

The Bonds bear interest from (but excluding) 16 November 2023 (the **Issue Date**) until (and including) the Maturity Date (as defined below) at the rate of 2.60 per cent of their Aggregate Principal Amount per annum, payable annually in arrear on 16 May of each year (the **Interest Payment Date**), for the first time on 16 May 2024. There will be a short first interest period from (and including) 16 November 2023 (the issue date of the existing bonds) to (but excluding) the first Interest Payment Date. Interest on the Bonds is computed on the basis of a 360-day year of twelve 30-day months.

3 Redemption, Purchase and Cancellation

- (a) Redemption at Maturity

Unless previously redeemed, the Issuer undertakes to repay all outstanding Bonds at par, without further notice on 16 May 2031 (the **Maturity Date**).

- (b) Redemption at the Option of the Issuer

Subject to a period of not less than thirty (30) nor more than sixty (60) days' prior notice to the Principal Paying Agent, the Issuer may redeem the Bonds at any time after the Issue Date and prior to the Maturity Date, in whole, but not in part only, at par of their Aggregate Principal Amount plus accrued interest, if any, on the date determined by the Issuer for early redemption, if eighty-five (85) per cent or more of the Aggregate Principal Amount have been redeemed or purchased and cancelled at the time of such notice.

(c) Redemption at the Option of the Holders upon Change of Control with regard to the Guarantor

(A) A **Change of Control** occurs when:

- (a) an offer to acquire issued and fully paid Shares, whether expressed as a public takeover offer, a merger or similar scheme with regard to such acquisition, or in any other way, is made in circumstances where (i) such offer is available to (a) all holders of Shares, (b) all holders of Shares other than the offeror and any persons acting in concert with such offeror or (c) all holders of Shares other than persons who are excluded from the offer by reason of being connected with one or more specific jurisdictions, and (ii) such offer having become or been declared unconditional in all respects, the Guarantor becomes aware that the right to cast more than 50 per cent of all the voting rights (whether exercisable or not) of the Guarantor has become unconditionally vested in the offeror and any persons acting in concert with the offeror; or
- (b) the Guarantor consolidates with or merges into any other company save where, following such consolidation or merger, shareholders of the Guarantor immediately prior to such consolidation or merger have the right to cast 50 per cent or more of the voting rights (whether exercisable or not) of such other company; or
- (c) the legal or beneficial ownership of all or substantially all of the assets owned by the Guarantor, either directly or indirectly, are acquired by one or more other persons acting in concert.

Shares pursuant to this section means issued and fully paid registered shares of currently CHF 1.00 par value each of the Guarantor (and all other (if any) shares or stock resulting from any subdivision, consolidation or reclassification of such shares) which as between themselves have no preference in respect of dividends or amounts payable in the event of any voluntary or involuntary liquidation or dissolution of the Guarantor.

(B) Upon a Change of Control:

the Guarantor shall forthwith, or, if it is not clear at that point in time whether the Holders are entitled to exercise their redemption rights pursuant to sub-clause (C) below because the Guarantor's BBB+ rating (or better) by Standard and Poor's or the equivalent by Moody's or Fitch is not yet available, immediately following the receipt of the rating decision of the relevant rating agency or after two months, whatever is earlier, give notice of that fact to the Holders (the **Change of Control Notice**) in the form set out in Condition 11. The Change of Control Notice shall:

- (a) inform the Holders of their right to require redemption of the Bonds pursuant to sub-clause (C) below;
- (b) specify the date (the **Change of Control Redemption Date**), being not more than sixty (60) and not less than thirty (30) days after giving such notice, on which the Bonds may be redeemed at the option of the Holders pursuant to sub-clause (C) below; and
- (c) provide details concerning the Change of Control, including to specify the relevant office of the Principal Paying Agent (the **Specified Office**) for the purposes of sub-clause (C) below.

(C) Early Redemption at the Option of Holders upon Change of Control

Upon the occurrence of a Change of Control, the Guarantor will at the option of a Holder, redeem such Bond at its Principal Amount on, together with interest accrued up to, the Change of Control Redemption Date unless,

- (a) in the event of a merger or consolidation of the Guarantor, (i) the surviving entity has or receives a rating of at least BBB+ by Standard & Poor's or the equivalent by Moody's or Fitch for its senior unsecured long-term debt on a consolidated basis, (ii) assumes or keeps, as the case may be, the Guarantor's obligations under the Bonds pari passu with its own senior obligations, or
- (b) in the event of an offer to acquire the Guarantor's Shares as described in sub-clause (A) above, the acquirer (i) has a rating of at least BBB+ by Standard & Poor's or the equivalent by Moody's or Fitch for its senior unsecured long-term debt or receives such a rating on a consolidated basis after giving effect to the acquisition, (ii) the acquirer assumes the Guarantor's obligations under the Bonds pari passu with its own senior obligations.

It is understood that where no rating exists for the senior unsecured long term debt of the surviving entity, the acquiring entity or the Guarantor, as the case may be, or a rating is not received within a period of two months since the occurrence of a Change of Control, respectively, then the Holders shall have a redemption right as described in the first sentence of this sub-clause (C).

To exercise such option, a Holder must present at the Specified Office a duly completed redemption notice in the form obtainable at the Specified Office of the Principal Paying Agent (a **Change of Control Redemption Notice**), together with clearing instructions in a form satisfactory to the Principal Paying Agent allowing for the transfer of the relevant Bond(s) through SIX SIS to the Principal Paying Agent by not later than fourteen (14) days prior to the Change of Control Redemption Date. No Bond or Change of Control Redemption Notice so deposited may be withdrawn without the consent of the Issuer.

(d) Purchases

The Issuer, the Guarantor or any of their respective Subsidiaries may, either directly or indirectly, at any time purchase Bonds at any price, in the open market or otherwise. Any purchase shall be made in accordance with applicable laws or regulations, including applicable stock exchange regulations. Such Bonds may be held, resold or, at the option of the Issuer, surrendered to the Principal Paying Agent for cancellation as set out below.

(e) Cancellation

All Bonds which are redeemed or surrendered to the Principal Paying Agent for cancellation shall forthwith be cancelled. All Bonds so cancelled cannot be reissued or resold.

(f) Notice

Where the provisions of this Condition 3 provide for the giving of notice by the Issuer to the Principal Paying Agent, such notice shall be deemed to be validly given if made in writing with all required information to the Principal Paying Agent within the prescribed time limit. Such notices shall be announced to the Holders as soon as practicable pursuant to Condition 11. Such notices shall be irrevocable.

4 Payments

The amounts required for payments with respect to the Bonds will be made available in good time in freely disposable CHF which will be placed at the free disposal of the Principal Paying Agent on behalf of the Holders. If the due date for any payment by the Issuer does not fall on a Business Day, the Issuer undertakes to effect payment for value the Business Day immediately following such due date and the Holders will not be entitled to any additional sum in relation thereto. All payments with respect to the Bonds will be made to the Holders in CHF without collection costs.

The receipt by the Principal Paying Agent of the due and punctual payment of the funds in CHF as above provided shall release the Issuer and the Guarantor of their payment obligations under the Bonds to the extent of such payments.

If the Bonds are not redeemed when due, interest shall continue to accrue until (and including) the day when the Bonds are redeemed.

5 Statute of Limitations

In accordance with Swiss law, claims for interest payments shall become time-barred after a period of five (5) years and claims for the repayment or redemption of Bonds after a period of ten (10) years, calculated from their respective due dates.

6 Taxation

All payments in respect of the Bonds are subject to all applicable taxes, including the deduction of the Swiss Federal Withholding Tax (*Verrechnungssteuer*), currently levied at a rate of thirty-five (35) per cent.

7 Status of the Bonds and Negative Pledge

(a) Status

The Bonds constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer, rank *pari passu* among themselves and with all other present or future unsecured and unsubordinated obligations of the Issuer, except for such preferences as are provided for by any mandatorily applicable provision of law.

(b) Negative Pledge

So long as any of the Bonds remain outstanding, neither the Issuer nor the Guarantor will, and the Guarantor will procure that no Material Subsidiary of the Guarantor will, create or have outstanding any mortgage, charge, pledge, lien or other form of encumbrance or security interest, upon the whole or any part of its assets or revenues, present or future, to secure any Relevant Debt or to secure any guarantee or indemnity in respect of any Relevant Debt unless, at the same time or prior thereto, the Issuer's or, as the case may be, the Guarantor's obligations under the Bonds (in the case of the Issuer) or the Guarantee (in the case of the Guarantor) (i) are secured equally and rateably therewith by such encumbrance or security interest or benefit from a guarantee or indemnity in substantially identical terms thereto, as the case may be, or (ii) have the benefit of such other

security, guarantee, indemnity or other arrangement as shall be approved by an extraordinary resolution of the Holders.

For the purposes of this Section 7, **Relevant Debt** means any present or future financial indebtedness of the Issuer, the Guarantor and its Material Subsidiaries, in the form of, or represented by, notes, bonds, debentures, loan stock or other securities, which are for the time being, or are capable of being, quoted, listed or ordinarily dealt with on any stock exchange, over-the-counter or other securities market.

8 Events of Default

If any of the following events (each event an **Event of Default**) shall occur, UBS in its capacity as Holders' representative (the **Holder's Representative**) has the right but not the obligation, on behalf of the Holders, to declare all outstanding Bonds immediately due and repayable at par plus accrued interest:

- (a) there is a failure by the Issuer, failing whom the Guarantor, to pay principal and/or interest on any of the Bonds, if and when due and such failure continues for a period of twenty (20) calendar days; or
- (b) a default is made in the performance or observance of any material covenant, condition or provision which is to be performed by the Issuer under the Terms of the Bonds or by the Guarantor under the Guarantee and (except where the Holders' Representative certifies in writing that, in its reasonable opinion, such default is not capable of remedy, when no such notice or continuation as is mentioned below shall be required) such default continues for a period of twenty (20) calendar days following the service by the Holders' Representative on the Issuer or the Guarantor, of notice requiring such default to be remedied; or
- (c) any other present or future indebtedness of the Issuer or the Guarantor or of any other Material Subsidiary for or in respect of monies borrowed is not paid when due (otherwise than, where permitted under the terms of the relevant indenture or agreement, at the option of the relevant debtor) or, as the case may be, within any applicable grace period, or becomes due and payable prior to its stated maturity as a result of an event of default (howsoever described), or any security in respect of any such indebtedness become enforceable or any guarantee of, or indemnity in respect of, any such indebtedness given by the Issuer or the Guarantor or any other Material Subsidiary is not honoured when due and called upon or, as the case may be, within any applicable grace period, provided that no such event shall be taken into account for the purposes of this paragraph (c) unless the relative indebtedness, either alone or when aggregated with other indebtedness relative to all, if any, other such events which shall have occurred and are continuing shall at any time have an outstanding nominal value that equals or exceeds CHF 100,000,000 or its equivalent in any other currency or currencies (calculated on the basis of the middle spot rate for the relevant currency against CHF as quoted by any leading bank at the place of payment of such debt on the day on which this paragraph operates); or
- (d) any mortgage, lien or other encumbrance, present or future, created or assumed by the Issuer, the Guarantor or any other Material Subsidiary becomes enforceable and any step is taken to enforce it (including the taking of possession or the appointment of a receiver, manager or other similar person but not the serving of a payment order (*Zahlungsbefehl*) provided that the aggregate amount of the relevant indebtedness in respect of which such mortgage, lien or other encumbrance was created or permitted to subsist equals or exceeds CHF 100,000,000 or its equivalent in another currency or currencies (calculated on the basis of the middle spot rate for the relevant currency against CHF as quoted by any leading bank at the place of payment of such debt on the day on which this paragraph operates), and any such steps taken are not abandoned or discontinued within thirty (30) days of being taken; or
- (e) the Issuer, the Guarantor or a Material Subsidiary is (or is deemed by law or a court to be) insolvent or bankrupt or unable to pay its debts, stops or suspends payment of all or a substantial part of its debts, proposes or makes a stay of execution, a postponement of payments (*Stillhaltevereinbarung*), a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any such debts or a moratorium or postponement of payments (*Stillhaltevereinbarung*) is agreed or declared in respect of or affecting all or a substantial part of the debts of the Issuer, the Guarantor or a Material Subsidiary; or
- (f) the Issuer, the Guarantor or a Material Subsidiary alters its legal or commercial structure through bankruptcy, liquidation, disposal of all or substantially all of its assets, change in the objects of the legal entity and/or commercial activities or merger, in so far as the relevant action, in the Holders' Representative's reasonable opinion, has a material adverse effect on the capacity of (i) the Issuer to meet its obligations under the Terms of the Bonds and/or (ii) the Guarantor to meet its obligations under the Guarantee, unless the Holders' Representative considers the situation of the Holders as adequately protected based on securities created or other steps taken by the Issuer and/or the Guarantor; or
- (g) a dissolution or merger involving the Issuer or the Guarantor as result of which the Issuer or the Guarantor, as the case may be, is not the surviving legal entity, unless the successor legal entity assumes all the Issuer's or the Guarantor's liabilities in respect of the Bonds; or
- (h) the Guarantee ceases to be, or is claimed by the Guarantor not to be, in full force and effect.

The Issuer and the Guarantor undertake to inform the Holders' Representative without delay if any event mentioned under paragraph (b) through (h) has occurred and to provide the Holders' Representative with all necessary documents and information in connection therewith.

If an Event of Default occurs, the Holders' Representative has the right but not the obligation to serve a written notice of default (**Default Notice**), such notice having the effect that the Bonds shall become immediately due and payable at the Aggregate Principal Amount plus accrued interest, if any, on the day the Default Notice is given.

Upon the occurrence of an Event of Default, the Holders' Representative may invite the Holders in accordance with art. 1157 seq. of the Swiss Code of Obligations to a Holders' meeting for the taking of a resolution on the serving of a Default Notice, provided the Holders' Representative has not served such Default Notice itself. The legally valid resolution of the Holders' meeting to serve a Default Notice, shall replace the right reserved by the Holders' Representative according to these Terms of the Bonds to serve a Default Notice on behalf of the Holders. If the Holders' meeting votes against the serving of a Default Notice, the right to serve such Default Notice shall revert to the Holders' Representative whereby the Holders' Representative shall not be bound by the resolution of the Holders' meeting if and to the extent that new circumstances arise or become known which require a revised assessment of the facts.

GUARANTEE

(in the meaning of art. 111 of the Swiss Code of Obligations, hereinafter called the **Guarantee**)

- (a) Being informed that Lonza Swiss Finanz AG, Münchensteinerstrasse 38, CH-4002 Basel, (hereinafter called the **Issuer**), issued and sold 2.60 per cent Bonds (hereinafter called the **Bonds**) in the aggregate principal amount of CHF 215,000,000 due 16 May 2031, Lonza Group Ltd, Münchensteinerstrasse 38, CH-4002 Basel (hereinafter called the **Guarantor**) herewith irrevocably and unconditionally guarantees to the holders of the Bonds (hereinafter called the **Holder**s) in accordance with Article 111 of the Swiss Federal Code of Obligations, irrespective of the validity of the Bonds, the Bond Purchase Agreement and the Paying Agency Agreement prepared in relation to the Bonds (hereinafter called the **Agreements**) and waiving all rights of objection and defence arising from the Bonds and the Agreements, the due payment of the amounts payable by the Issuer under and pursuant to the Terms of the Bonds (including, without limitation, any Additional Amounts). Accordingly, the Guarantor agrees to pay to UBS AG, Paradeplatz 8, CH-8001 Zurich, Switzerland, in its capacity as Principal Paying Agent, on behalf of the Holders, within 7 days after the receipt by the Guarantor of the Principal Paying Agent's first written demand for payment and the Principal Paying Agent's confirmation in writing that an amount has become due and payable under the Bonds which is equivalent to the amount claimed under the Guarantee and has remained unpaid on the due date, or any amount due and payable by the Issuer under and pursuant to the Terms of the Bonds.

In the event that any payments by or on behalf of the Guarantor to the Principal Paying Agent shall be made subject to withholding or deduction for any such relevant taxes, duties, assessments or governmental charges so required by law, such additional amounts (the **Additional Amounts**) shall be payable by the Guarantor as may be necessary in order that the net amounts received by the Principal Paying Agent on behalf of a Holder after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable by the Principal Paying Agent in respect of the relevant Bonds in the absence of such withholding or deduction. However, no such Additional Amounts shall be payable on account of any taxes, duties or governmental charges which:
- (i) are duly disclosed in a prospectus in relation to the Bonds, including the Swiss Federal Withholding Tax (*Verrechnungssteuer*), currently levied at a rate of thirty-five (35) per cent; or
 - (ii) are payable otherwise than by deduction or withholding from payments under this Guarantee; or
 - (iii) are payable by reason of a Holder having, or having had, some personal or business connection with Switzerland and not merely by reason of the holding of the Bonds; or
 - (iv) are payable by reason of a change in law that becomes effective more than thirty (30) days after the relevant payment becomes due, or is duly provided for and notice thereof is published in accordance with Condition 11 of the Terms of the Bonds, whichever occurs later.

- (c) The Guarantee constitutes a direct, unconditional, unsecured and unsubordinated obligation of the Guarantor and ranks and will rank *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor except for such preferences as are provided by any mandatory applicable provision of law.
- (d) So long as any Bond remains outstanding, the Guarantor will not and the Guarantor procures that no Material Subsidiary of the Guarantor will, create or have outstanding any mortgage, charge, pledge, lien or other form of encumbrance or security interest, upon the whole or any part of its assets or revenues, present or future, to secure any Relevant Debt or to secure any guarantee or indemnity in respect of any Relevant Debt unless, at the same time or prior thereto, the Guarantee (i) is secured equally and rateably therewith by such encumbrance or security interest or benefit from a guarantee or indemnity in substantially identical terms thereto, as the case may be, or (ii) has the benefit of such other security, guarantee, indemnity or other arrangement as shall be approved by an extraordinary resolution at a bondholders' meeting pursuant to the Swiss code of obligations.

The receipt by the Principal Paying Agent of funds in Swiss francs in Switzerland from the Guarantor shall release the Guarantor from its obligations under this Guarantee to the extent of the amounts received by the Principal Paying Agent.

- (f) The Guarantee shall give rise to a separate and independent cause of action of the Principal Paying Agent acting on behalf of the Holders against the Guarantor and shall apply irrespective of any indulgence granted to the Issuer by the Principal Paying Agent or any Holders from time to time and shall continue in full force and effect notwithstanding any judgment or order against the Issuer and/or the Guarantor.
- (g) The Guarantee shall be governed by and construed in accordance with the substantive laws of Switzerland (i.e. without regard to the principles of conflict of laws).
- (h) Any dispute which might arise based on the Guarantee shall be settled in accordance with Swiss law and shall fall within the exclusive jurisdiction of the courts of the city of Zurich, and if permitted, the Commercial Court of the Canton of Zurich, the place of jurisdiction being Zurich 1. The Principal Paying Agent is, however, entitled to deduct from the received amount all costs and expenses related to the collection of said amount, including court fees and legal fees.

10 Substitution of the Issuer

The Issuer may, upon the decision of the Guarantor but without the consent of the Holders, at any time substitute itself in respect of all rights and obligations arising under or in connection with the Bonds with any Swiss legal entity of which

- (b) the Guarantor has issued an irrevocable and unconditional guarantee as per art. 111 of the Swiss Code of Obligations in respect to the obligations of the New Issuer under the Bonds in form and content satisfactory to the Holders' Representative.
